Letter No.944 dated the 28th November 1933, from the Assistant Superintendent, Government Branch Press, Mysore, to the Superintendent, Govt Printing, Bangalore.

Referring to your letter No.P. 1247 dated the 1st instant, forwarding copies of the Inventory of the Branch Press together with the Comptroller's observations, I have the honor to return the Inventories with the following observations:

(1) Statement "A" - Composing item 83

The quantity on hand on 1st July 1933 was 425 lbs and 2 ozs. Out of this, 77 lbs and 8 ozs were sent to the Head Office, 21 lbs were supplied to the Railway Audit Office and 8 lbs were given for casting. The total quantity on which depreciation has to be calculated is therefore 425 lbs and 2 ozs less (77 lbs and 8 ozs plus 21 lbs plus 8 lbs) = 318 lbs and 10 ozs. 12 per cent of 318 lbs and 10 ozs is 38 lbs and 3 19/25 ozs or 38 lbs and 4 ozs. Hence, the quantity of depreciation shown is correct. The value of decpreciation as snown in tne Inventory is correct.

Composing item 84 - The amount of depreciation in this item works out to 103 lbs and 14 ozs valued at Rs 95-1-4 and not 93 lbs and 14 ozs as pointed out by the Comptroller. This correction has now been made.

Items 117-118 - Corrections pointed out by the Comptroller have been made.

Materials item 7 Cast Iron Furniture - Correction pointed out has been made.

Education Department - The depreciation on this item comes to Rs 15-9-3 63/100. As the fraction is more than ½, it is taken as four pies. The correction is now made.

Oriental Library - Necessary correction has been made.

(2) (a) The 1 lb and 4 ozs of 8 pt type has been included under items 66 and 71 under composing.

(b) Binding Sl.No.69 - Since spare parts of machinery are treated as consumable articles, they are not taken on to the Inventory.

(c) Thompson Sl. 1 - Vide remarks against (b)

(4) A statement in the form required is appended.

(5) Authority for writing off articles has been noted.
